Dear future students,

I want to tell you about 2007. Our clothing is made of leather believe it. Today our video games are mostly zombie games. If Block Buster is still out in your time if you want a scary movie get Land of the Dead. Block Buster has first person shooting games. The highest number America knows so far is Dickillion it has 100 zeros. We use pencils to write. You probably have a meatie stick that you point at the paper and move it and it will write. Today on T.V there is a funny show called Ed, Edd and Eddy. Oh ya I forgot to tell you that I am writing with a pencil right now.

Sincerely,  
Chave

**O**n May 18, 1980, the volcano Mount St. Helens woke up. The ground shook with an earthquake. An explosion blew down thousands of trees. Tons of rock and ash were thrown up in the air. The north side of Mount St. Helens blew apart. A giant cloud of smoke formed in the sky, making the world below dark. Mount St. Helens looked much different after the eruption in 1980. But trees grew again on the slopes. Many animals returned to the volcano. People visited the volcano park to see the volcano up close.

## Costs for aquatic center skyrocket

BY ADAM DROEGEMUELLER  
adroegemueller@thestar-herald.com

It is back to the drawing board on Belton's new aquatic center after pre-bid estimates came in recently at more than \$1.3 million over what had been anticipated.

Park board members and park department director Todd Spalding are currently looking for as many cost-reducing options as they can for the new facility. Several items will be re-bid for the \$8.1 million project. While the park board hopes to see the overall cost drop, they said

park board presented the latest cost information to the Belton Board of Aldermen during a special work session Oct. 23 and asked the board if it would authorize borrowing an additional \$1.3 million. The board of aldermen voted to wait on authorizing any additional funds and asked the park board to come back to the Nov. 6 work session with the construction manager to answer questions.

The project will be paid for during a 20-year period from funds raised by the city's half-cent sales tax for parks and recreation. The increase in cost for the aquatic center

The most popular movie is Star Wars. There is a new game coming out called Halo 3.

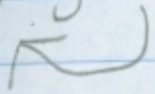

There is also other Halo games such as Halo 1 and Halo 2. We go to a place that has lots of clothes. They have sweat shirts, T-shirts, jeans, shorts. A lot of people wear T-shirts and shorts in the summer.

Dear future students,

I want to tell you about 2007. I love school. I like Mrs. Brown she is a nice teacher. You are very lucky to have her. We don't have computers in the class except for Mrs. Brown. We have four special classes. They are probably called something totally different. They are called computer lab, art, music, P.E. gym. We do more diffcult stuff in the 4th grade than kindergarten or any others. In all of the classes. We are the first classes to be in Kentucky Trail. The play ground is probably looking bad by ppw I wish you were here right now.

The clothing now days are very cute. To me no I'm not a girly girl so don't start thinking that. Sometimes you can get lucky and find a hole outfit on clearance. There pretty nice if you could see how they are made. Sometimes you can get a type a seatpant you may find a shirt to go with it. It is so nice that we have so much clothing and malls to get and shop at.
